**WE MILK COWS** in our own 250 cow herd...just like you! We started Blondin Sires more than 7 years ago as it was difficult for us to find the kind of bulls we like to use in our own herd. Bulls with full pedigrees, classified and milk recorded dams and also having today's top genomics. Today we are seeing the results of our first bulls getting their proofs with great success. We have had the #1 Conformation bull three times in Canada including the current #1 LIMITED P and of course previously with MASTER and LEGEND! And today we now have the #1 Proven Type sire in the US with Blondin ENERGY! We purchased these bulls specifically for their elite Conformation and they delivered!

As you will find going through this catalogue we have added many complete total package bulls to our line-up that combine the great conformation with exceptional production for today's modern dairy environments. You will also find we have added a section for our more US focused bulls. Although our primary proving system has been the CDN system, breeders have been asking us for bulls that meet our high standards but are based in the US system as well. You spoke, we listened!

We truly appreciate all the support for what we are doing at Blondin Sires.

From one breeder to another... *Thank You!*
